

Volunteer Providers Needed!!!

Come Join the 45th Street Homeless Youth Clinic Team

- ◆ The 45th Street Homeless Youth Clinic is looking for Volunteer Providers. The youth clinic is a medical clinic open from 6pm-9pm on Wednesday and Thursday nights providing integrated healthcare services to homeless youth and young adults ages 12-23.
- ◆ We are always looking for licensed MD' s, nurse practitioners, physician assistants, registered nurses, dentists, acupuncturists, etc.
- ◆ Working with this population of youth can be difficult as well as rewarding; therefore, volunteers should have some experience or interest in working with homeless young people and/or at-risk youth. Volunteers usually donate one night per month depending on their position and availability.
- ◆ Volunteering at the 45th Street Homeless Youth Clinic is an exciting and fulfilling way to give your time to a population of youth that is often disregarded. Your help would be greatly appreciated.
- ◆ Our volunteer providers tell us the Youth Clinic is a rewarding volunteer experience because:
 - it is a relaxed and fun forum to meet colleagues and network
 - there are no formal restrictions on the time you spend with patients
 - it is an interesting challenge to work with a population who require non-traditional approaches to practice
 - there is the opportunity to learn by being a member of a multi-disciplinary team in a supportive collegial environment
