

30th Annual Primary Care Review and Update 2019 Spring Conference

April 27 – 30, 2019

Marriott Hotel Seattle Airport | Seattle, Washington

The Washington State Academy of
Physician Assistants

Visit Seattle WA photo courtesy of Howard Frisk

The Washington State Academy of Physician Assistants is proud to host its 30th Annual Primary Care Review and Update Conference at the Marriott Hotel near the Seattle Airport. We have decided to freshen up our conference with a new name, a new venue and some new ideas but you can expect to experience the same great quality WAPA has always offered. We know that all Physician Assistants need updated CME to help them continue to provide excellent patient care. We also understand the need for Physician Assistants to review major medical core knowledge areas as they prepare to take the NCCPA Recertification Exam. Our goal is to help meet both of these needs, and to make your learning experience a pleasant one. Please join us at our 2019 Spring Conference for an outstanding opportunity to review and update your medical skills as well as enjoy the rare opportunity to network with fellow colleagues.

Accreditation

This activity has been reviewed by the AAPA Review Panel and is compliant with AAPA CME Criteria. This activity is designated for **29.50 AAPA Category 1 CME** credits. PAs should only claim credit commensurate with the extent of their participation.

This activity was planned in accordance with AAPA CME Standards for Live Programs and for Commercial Support of Live Programs.

Electronic Syllabus

WAPA will be providing an e-syllabus in place of a paper syllabus. The link will be sent to your email address prior to the start of the conference. It will have all of the speaker presentations (powerpoint slides, outline, articles). Each attendee at registration check-in will receive a packet of information (schedule, raffle rules and events that you signed up for). The e-syllabus can be downloaded onto your laptop or ipad so that you can follow along during the presentations. The e-syllabus will be available online for 3 months after the conference. Watch for an email from WAPA with instructions on how to view the e-syllabus online. There will be complimentary WiFi in the lecture halls.

Parking

Daily parking is included in your registration fee. Your discounted hotel booking at the Seattle Airport Marriott Hotel also includes your daily parking fee.

Automated Response System

An Automated Response System (ARS) will be used in both our main and concurrent lecture hall to promote interaction between you and the speaker. The hand-held remote will allow attendees to convey responses to questions asked by each speaker. Complete instructions will be available at the conference.

Friday Night Happy Hour and Registration

Join us Friday evening April 26th, between 7:00pm–9:00pm in the WAPA welcome suite at the conference hotel. Come by and enjoy a light meal including delicious NW restaurant cuisine and local beers and wines or just swing by and register early and say hello to some fellow conference goers. Just ask for the suite location at the hotel registration desk on your arrival.

Registration will also be available starting at 7:00am on Saturday, April 27th.

Refunds/Cancellations

An administrative fee of \$75.00 is withheld from all refunds. No refunds will be made after the course has begun. Registration is limited to available space.

Concurrent Lectures

Concurrent lectures are offered throughout this conference to provide you with medical education alternatives. Whether you have been to our conference before or attending for the first time, we are certain you will be completely satisfied with the vast variety of choices available. Many of these offerings will have a hands on workshop feel, without any extra fees.

Concurrent Workshops

Similar to concurrent lectures, the concurrent workshops are intended to provide conference attendees with medical education alternatives. The workshops will have limited enrollment to maximize the hands-on nature of the sessions. Please refer to the registration page for each required workshop fee.

Training In Suicide Care Workshop

On **Monday, April 29**, we will be offering Training in Suicide Care for Physicians (TSCP). This training provides an opportunity for you to complete your full 6 hour licensing obligation which promotes the physician's leadership role in understanding and addressing this preventable cause of morbidity and mortality. The workshop targets general competence in suicide risk assessment, treatment and management and is based on existing practice guidelines which includes the SPRC Core Competencies in Suicide Risk Assessment and Management, the APA Practice Guideline for the Assessment and Treatment of Patients with Suicidal Behaviors (2003) and the National Action Alliance for Suicide Prevention's report, Suicide Care in Systems Framework (2011).

IMPORTANT: This curriculum has been approved by the Washington State Department of Health to meet the requirement for training in suicide risk assessment, treatment and management for health care professionals.

MEDEX NW Alumni Reception

On Saturday April 27th, MEDEX NW will host its annual awards ceremony at Maxi's at the nearby Doubletree hotel from 5:00pm – 8:00pm. MEDEX NW Alumni, students and conference attendees are all welcome to attend.

Dinner and Breakfast Programs

WAPA is hosting a variety of non CME industry supported meal functions as part of the conference. These are available to the first 50 people who register for them. It is important that if you sign up for these events, that you attend.

Dinner programs will be offsite. Bus Transportation will be provided for all the dinner programs. Please check the registration desk for details. A bus to the downtown Seattle dinners will leave the hotel at 6 pm and return at approximately 9 pm.

Breakfast programs will be held in our concurrent lecture hall from 7:00am–7:50am and will include a hot breakfast buffet for those that attend.

Saturday, April 27th:

Dinner will be supported by GlaxoSmithKline. This will be held at Ruth Chris downtown Seattle with a presentation on “Evaluating the Effect of LAMA/LABA and Triple (ICS/LABA/LAMA) on Patients with COPD” given by Thomas Plucinak, PhD. This program conflicts with the MEDEX NW reception so it will not be possible to attend both events.

Sunday, April 28th:

Breakfast will be supported by Otsuka. The presentation will be on ‘Disease Burden of Autosomal Dominant Polycystic Kidney Disease (ADPKD)’ given by Laura Frank, PhD, MPH, RD, CD.

Dinner will be supported by Allergan. This will be held at Shaker + Spear downtown Seattle with a presentation on ‘Bipolar Depression Disease State Overview’ given by Caroline Hostetler, PhD.

Monday, April 29th:

Breakfast will be supported by Boston Scientific. The presentation will be on ‘Men’s Health: Update in Urology’ given by Thomas Walsh, MD.

Dinner will be supported by Gilead. This will be held at Wild Ginger Restaurant, downtown Seattle with a presentation on ‘Implementing Truvada for PrEP into Clinical Practice’ given by Kevin Hatfield, MD.

Tuesday, April 30th:

Breakfast will be sponsored by Boehringer Ingelheim. The presentation will be on “Reducing Exacerbation Risk Early in COPD: Exploring the Evidence” given by Barbara Galko, MD.

“Resilience” Film Viewing

WAPA has purchased live streaming rights to the film “Resilience” and are making it available for viewing a few times throughout the conference free of charge. Feel free to come watch this one hour film either Saturday from 3:50-4:50pm or Monday from 2:50-3:50pm in the concurrent lecture hall or after our last main lecture on Tuesday from 4:30-5:30pm. We feel it provides valuable and updated medical practice information and think it will be worth your time.

Location

The **Marriott Seattle Airport** is located 1/2 mile east of the airport at: 3201 South 176th St. Seattle, WA 98188.

Lodging

From the moment you enter the lobby, you’ll know Seattle Airport Marriott is far beyond ordinary. As one of the premier Seattle airport hotels, the Marriott welcomes you with a warm, stone fireplace and a magnificent two-story wood-beamed atrium, providing the ideal setting to unwind and get comfortable. Settle down in style in a spacious guest room, equipped with the latest technology and upscale amenities. SeaTac airport hotel guests can catch that overdue workout in the 24-hour fitness center.

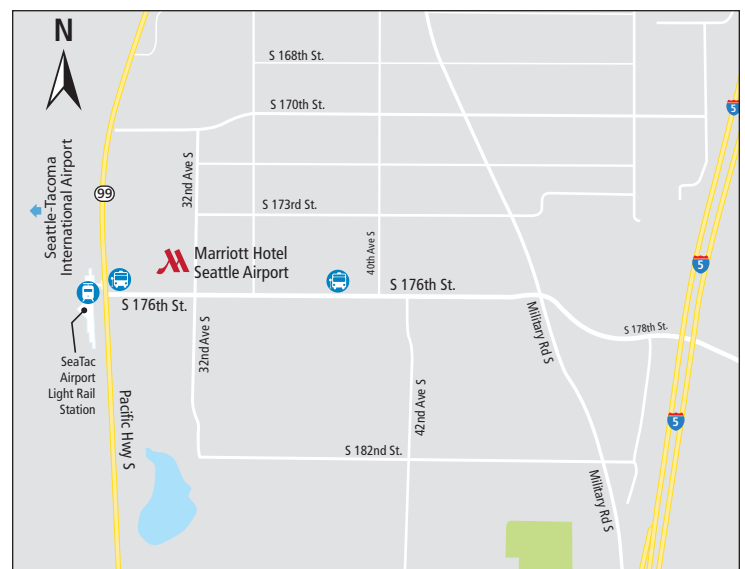

Hotel reservations must be made by Monday, April 4, 2019 in order to ensure our special conference room rates. You must indicate that you are attending the Washington State Academy of Physician Assistants conference in order to receive the reduced room rates. Please call 1-800-228-9290 or (206) 241-2000 for reservations.

Book your hotel online today: Book your group rate for Washington Academy of Physician Assistants (WAPA) Meeting 2019 using this link: [Special Hotel Discount Rate](#)

Special Conference Room Rates:

Single or Double :	\$135.00 per night plus taxes (Parking included)
Check in time:	3:00 pm
Check out time:	12:00 noon

2:50 pm – 5:20 pm
Workshop: Introduction to Cosmetic Botox Procedures
Erik Suh, MD, FFAFP

This Botox injection workshop is for beginners who are interested in learning how to inject Botox for cosmetic purposes. Glabella, forehead, crow's feet, vertical lip lines, DAO, and jaw reduction will all be discussed. Participants will spend time practicing and injecting each other with saline using 31 gauge insulin needles. If participants would like to be injected with Botox instead of saline as part of this workshop, there will be an additional fee of \$100 per 20 units of Botox which can be decided on and paid for the day of the workshop.

Wound Assessment and Management Workshop

Maria Lutes, ARNP and Abbey Schneidmiller, ARNP

are Pediatric Nurse Practitioners certified in Wound and Ostomy Management who developed and established the first designed Pediatric Wound Clinic in Washington State in January 2015. This workshop will be a great overview of wound healing to include assessment and management. The topics specifically addressed will include basic wound healing principles, care and management of burns in the acute and primary care setting, and assessment and treatment of patients who present with pilonidal disease. The workshop will include a short lecture followed by hands-on experience with simple and complex dressing changes.
